FALL NETTING PRICING

If you would like us to come out and cover your pond please indicate your preference below and return this form to us no later than August 30, 2019 along with your payment to qualify for your 10% Early Bird Fall Maintenance Discount.

All nets will be installed starting in September. Your pond must be cleared of leaves prior to net installation. Additional charges will apply if we have to clear your pond of leaves ourselves prior to net installation. If you are having your entire pond cleaned this fall, your pond cleaning and net installation will be scheduled towards the end of the fall maintenance season. Don't worry — your pond will be spotless prior to net installation.

- *If you have a stream, it should also be covered. This usually requires a second net.*
- *Large ponds may require a second net.*
- *We will trim back your plants as needed prior to installing the net.*
- *We will use rocks and pins to secure the net.*
- *You remove the net when all your leaves are gone.*

Please indicate your netting selection below and indicate your total order amount on the front side of this form. Note that some ponds may require two nets due to their large size or streams, bridges, etc.

_____ Supply and install one net over my pond:	\$550.00
_____ Supply and install two nets and support poles:	\$700.00
_____ Please mail one net to me (28' x 28'). I will cover my own pond.	\$300.00

TOTAL ORDER AMOUNT (ADD TO FRONT SIDE OF THIS FORM): _____
